ABOUT ME

I am a final-year B.Sc. student in Software Engineering at [Islamic Azad University](#), with a strong interest in robotics, computer graphics, and computer vision. Passionate about building intelligent and visually driven systems, I enjoy combining software engineering principles with AI and perception to solve real-world problems. I am continuously strengthening my expertise through hands-on projects, independent learning, and practical implementation while preparing for graduate research in these fields.

Research Interests: Computer Vision, Robotics, Computer Graphics

EDUCATION

Bachelor of Computer Engineering — Islamic Azad University *Jan 2021 – Jan 2027*

Tehran, Iran

- **Branch:** Software Engineering
- **GPA:** 3.26
- **Selected coursework:** Data Structures (4.0), Operating Systems (4.0), Algorithm Design (4.0), Artificial Intelligence (3.2), Programming Language Design (4.0), Software Engineering Lab (4.0).

Diploma in Computer Content Production (Animation) — Imam Sadegh Technical High School *Sept 2017 – June 2020*

Tehran, Iran

- **GPA:** 3.28

EXPERIENCE

Administrative Assistant & Python Instructor for Children *Sept 2023 – Jul 2024*

Radis Educational Institute, Rasht, Gilan, Iran

- Worked as Python instructor and receptionist, teaching students aged 12–18 [View](#)

Intern, Computer Services and Publishing Department *Oct 2025 – Present*

Technical and Vocational Organization, Rasht, Gilan, Iran

- Managed class registrations
- Introduced participants to exams

CERTIFICATIONS

- **Python Programming for Artificial Intelligence**
Technical and Vocational Training Organization of Iran
- **Problem Solving and Analytical Thinking in Artificial Intelligence**
Technical and Vocational Training Organization of Iran
- **Data Visualization with Python**
Technical and Vocational Training Organization of Iran
- **Presenting AI Solutions**
Technical and Vocational Training Organization of Iran

SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Artificial Intelligence Machine Learning, Deep Learning, Computer Vision

Animation: Autodesk Maya, Adobe Animate (Flash)

Tools & Platforms: VS Code, GitHub, WordPress

Other Skills: ICDL, Front-End Development & Web Design

LANGUAGES

Persian: Native

English: Advanced (TOEFL planned for Dec. 2026)
