ABOUT ME

I'm a Bachelor's graduate in Software Engineering from Islamic Azad University, with a strong interest in robotics, computer graphics, and computer vision. I enjoy combining solid programming fundamentals with a creative, visually-driven approach to problem solving. My goal is to grow into a well-rounded engineer who can build intelligent systems that bridge software, perception, and design. I am currently expanding my skills through hands-on projects, coursework, and continuous learning in these areas..

EDUCATION

Bachelor of Computer Engineering — Islamic Azad University

Jan 2021 – Jul 2026

Tehran, Iran

- Branch: Software Engineering
- **GPA: 16.50 $\approx$ 3.3 / 4.0**
- Selected Coursework: Data Structures (20 $\approx$ 4.00), Operating Systems (20 $\approx$ 4.00), Algorithm Design (19.5 $\approx$ 3.90), Artificial Intelligence (16 $\approx$ 3.20), Software Engineering (16.5 $\approx$ 3.30), Principles of Compiler Design (20 $\approx$ 4.00), Assembly Language (19 $\approx$ 3.80)

Diploma in Computer Content Production (Animation) — Imam Sadegh Technical High School

Sept 2017 – June 2020

Tehran, Iran

- GPA: 16.43 $\approx$ 3.2 / 4.0

SELECTED PROJECTS

[To be added]

EXPERIENCE

Administrative Assistant & Python Instructor for Children

Sept 2023 – Jan 2025

Radis Educational Institute, Rasht, Gilan, Iran

- Worked as Python instructor and receptionist, teaching students aged 12–18

Intern, Computer Services and Publishing Department

Oct 2025 – Present

Technical and Vocational Organization, Rasht, Gilan, Iran

- Managed class registrations
- Introduced participants to exams

CERTIFICATIONS

- **Python Programming** — Technical and Vocational Training Organization of Iran

SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Artificial Intelligence: Familiar with Machine Learning, Basic knowledge of Deep Learning, Computer Vision

Animation: Autodesk Maya, Adobe Animate (Flash)

Tools & Platforms: VS Code, GitHub, WordPress

Other Skills: ICDL, Front-End Development, Web Design

RESEARCH INTERESTS

Computer Vision, Robotics, Computer Graphics

LANGUAGES

Persian: Native

English: Advanced (TOEFL planned for Feb. 2027)

Korean: Basic (A1)
